Etude (Study)

- When you practice your scales and etudes be sure to vary the articulations: all slurred, all tongued, slur two & tongue two, tongue two & slur two, slur three and tongue one, etc.

Chromatic

For enrichment: to advance your technique even more, play your scales in full range. ie. For major scales, start on your lowest note (not necessarily the root or first note of the scale) and play to your highest note *using the same key signature*.

Always work with a metronome aiming for accuracy first and then increase the tempo. Accuracy is more important than speed.

3 – Work on your repertoire (15 minutes)

Choose to practice what needs to be mastered, don't waste your time practicing what you can already do.

Refer to Lesson One on how to approach mastering challenging sections.

Pick something from your band repertoire to practice.
